

THE OUTSIDE

Alberto Atalah (dr) – Ishay Sommer (bass) – Ricardo Espinoza (guit) - Roland B. Marx (voc)

The Outside in brief: one band, two albums, three nationalities. Members from Chile, Israel and Germany are creating a storm of sound which is hard to resist. The Berlin based band presented themselves to the metal world in 2012 with their debut disc (SAOL / H'Art), and grew more angry, dark and demanding with "Dawn of the Deaf" in 2015 (Bret Hart Records). Both albums received excellent reviews. But foremost, The Outside have been on tour nearly all over continental Europe, in Scandinavia, England, have made a big leap to Chile, and performed club shows with Sodom or Vicious Rumors, among others. But the future is now, and as the band is preparing its next release, it is presenting new material live for the first time.

Once again, The Outside have progressed - into a more intense, brutal, and captivating experience.
